

Price Update

22/10/2024 8:35 am BST

Summary

This screen facilitates the import of pricing information from your wholesale supplier. This process stores your supplier's price file, onto which you may apply your markups and dispensing fees through Code Entry.

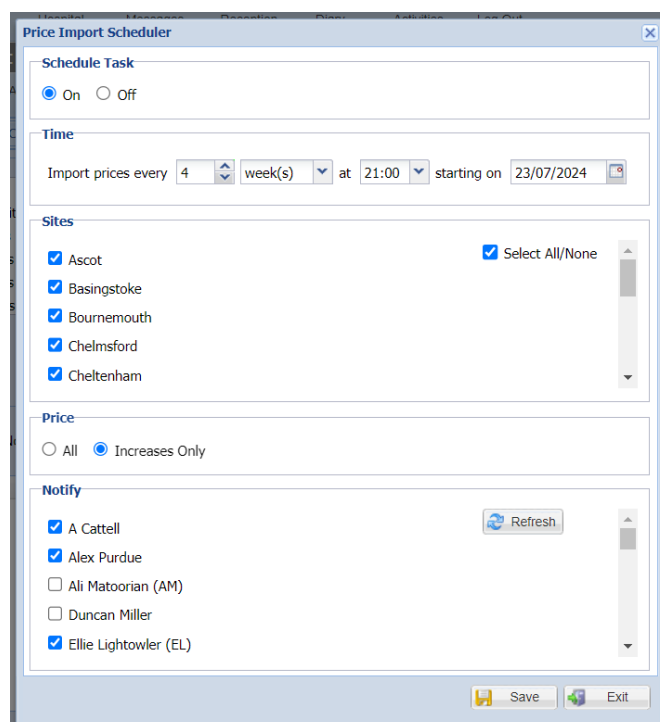

Details

Importing Prices (MWI Animal Health Wholesale Users)

This process can be automated for MWI wholesale users. The setup for this is documented below.

Set up an automated price update

1. Navigate to **Utilities > Wholesale > Price Updates tab**.
2. Select the '**Schedule**' button from the left hand side.
3. A window will display, providing a variety of options for the scheduled task:

The screenshot shows a window titled "Price Import Scheduler" with a standard Windows-style title bar (minimize, maximize, close buttons). The window is divided into several sections:

- Schedule Task:** Contains a radio button group with "On" selected and "Off" unselected.
- Time:** Contains a text field "Import prices every" followed by a spinner box set to "4", a dropdown menu set to "week(s)", a text field "at" followed by a spinner box set to "21:00", and a text field "starting on" followed by a date picker set to "23/07/2024".
- Sites:** Contains a list of sites with checkboxes: Ascot, Basingstoke, Bournemouth, Chelmsford, and Cheltenham. All are checked. To the right is a "Select All/None" checkbox, which is also checked. A vertical scrollbar is on the right.
- Price:** Contains a radio button group with "All" unselected and "Increases Only" selected.
- Notify:** Contains a list of names with checkboxes: A Cattell, Alex Purdue, Ali Matoonian (AM), Duncan Miller, and Ellie Lightowler (EL). A "Refresh" button is to the right. A vertical scrollbar is on the right.

At the bottom right, there are "Save" and "Exit" buttons.

We recommend the following configuration:

Schedule Task = ON

Time = Import every 4 week(s) at 21:00 on the first of each month.

Sites = All Sites

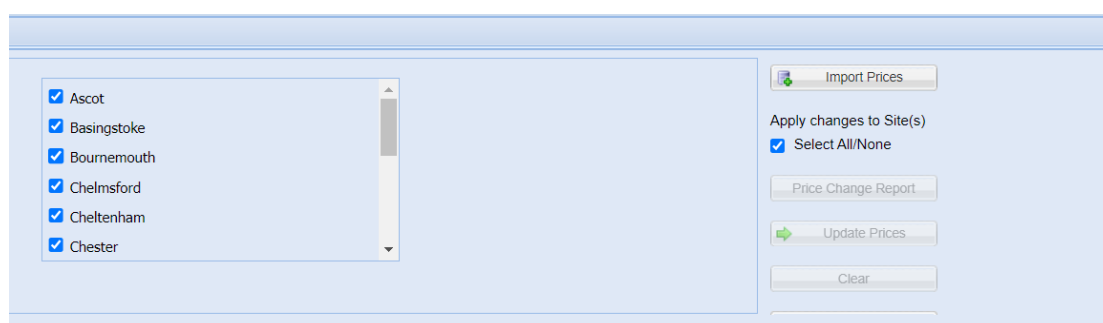

Notify = Admin users. (Notifications are sent via [Internal Messages](#)).

4. To save the scheduled task select '**Save**'. Scheduled tasks can be viewed in the Scheduler screen.

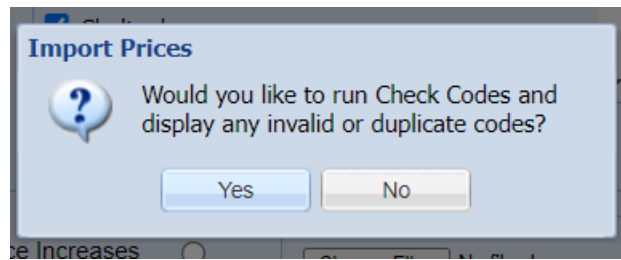

Importing Prices (All other Suppliers)

To manually import prices from your supplier, follow the below process.

1. Navigate to **Utilities > Wholesale > Price Updates tab**.
2. Select '**Import Prices**'.
3. Each Supplier has its own file format that they can provide to the practice.
4. Select the site's you wish to update prices for.

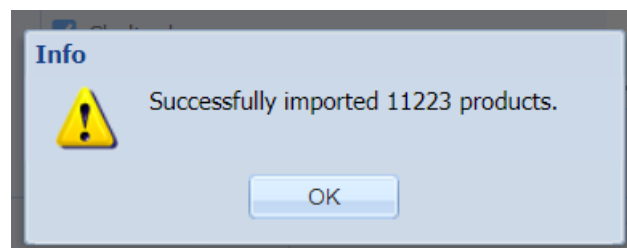

5. Once you have selected 'Import Price', the below window will appear.
6. Select '**Yes**' to run a check for Invalid/Duplicate codes or select '**No**' to continue.

More information on the importance of this task can be found in [Check Codes](#).

Once continuing with the price import, a confirmation window will display.

After clicking 'ok' users will get the staging price file information which will display any errors or warnings. Users can click the radio buttons to display All, Errors, or Warnings.

To continue with the import, click 'Approve'. The next step is to update your prices inline with the new price file.

Updating your prices

The supplier price file is now imported into your database and is available for ordering of drugs and supplies and for assigning codes in Code Entry. The next step is to update prices.

1. In the lower half of the screen, you will see any items stocked by the practice (and ordered from the selected supplier) along with the old price, new price and difference percentage (Diff %).

Select	Updated	Description	Supplier Code	Date	Old Price	New Price	Diff %
<input type="checkbox"/>	No	Animal Medicine Admin Record Books	01060019	23/07/2024	7.05	7.05	0.00
<input type="checkbox"/>	No	Maxitrol Drops 5ml	01180098	23/07/2024	4.73	4.73	0.00
<input type="checkbox"/>	No	Maxitrol Oint 3.5g	01180098	23/07/2024	4.73	4.73	0.00
<input type="checkbox"/>	No	Maxitrol Drops 5ml	01180098	23/07/2024	4.73	4.73	0.00
<input type="checkbox"/>	No	Maxitrol Oint 3.5g	01180098	23/07/2024	4.73	4.73	0.00
<input type="checkbox"/>	No	Mydracil Drops 1% 5ml	01180101	23/07/2024	11.79	11.79	0.00
<input type="checkbox"/>	No	All Trace Bolus 20 Cattle	01200016	23/07/2024	67.93	67.93	0.00
<input type="checkbox"/>	No	Rumbul Magnes 10 Bullets (50) Cattle	01200082	23/07/2024	37.87	37.87	0.00

2. If you wish to update all prices, regardless of whether they have gone up, down or remain

unchanged, select the **'Select All'** label, before clicking the **'Update Prices'** button on the right hand side.
