

Pets

21/10/2024 3:45 pm BST

Summary

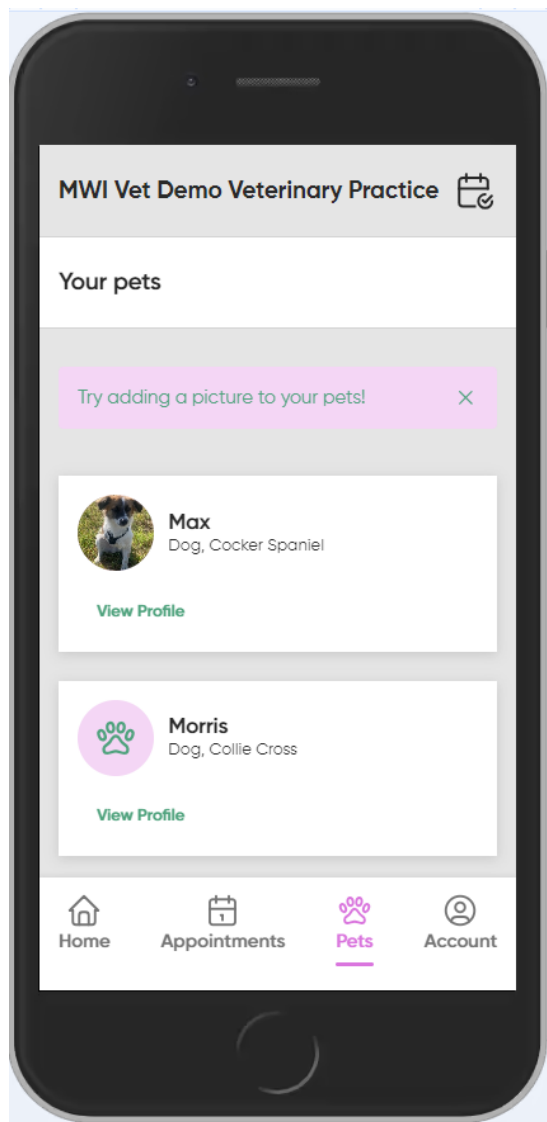

The Pets screen will allow the practice client to view their registered pets, add a new pet and view information regarding their pets previous appointment.

Details

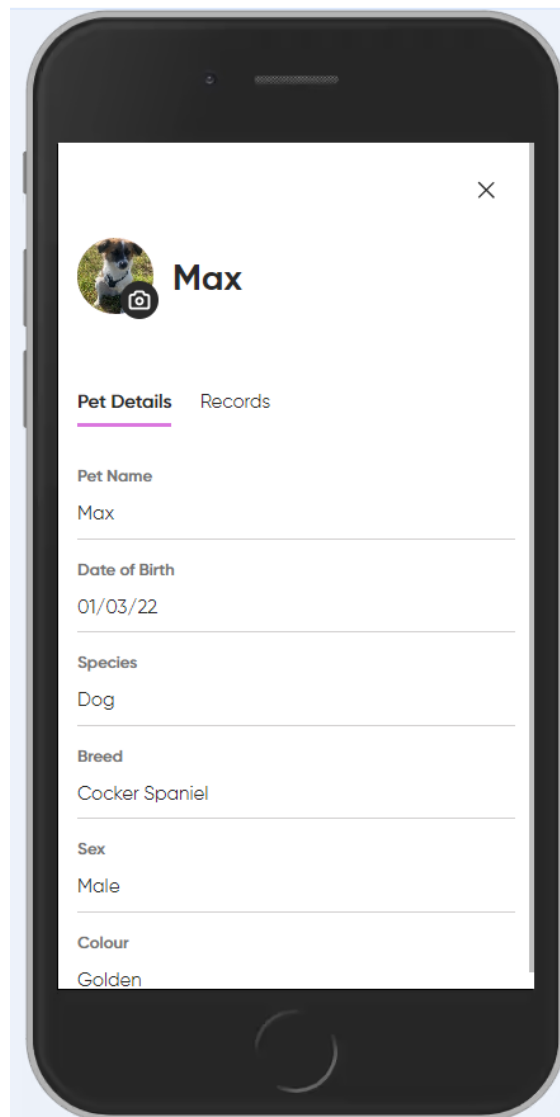

This page details the Pets screen within the practice clients MWI Pet.

Note - all workflows below are demonstrated on a mobile view of MWI Pet. If the client is using a desktop browser to access, workflows may differ slightly but have the same functionality.

In this screen, the client can view their pets registered within Merlin/MWI Pet:

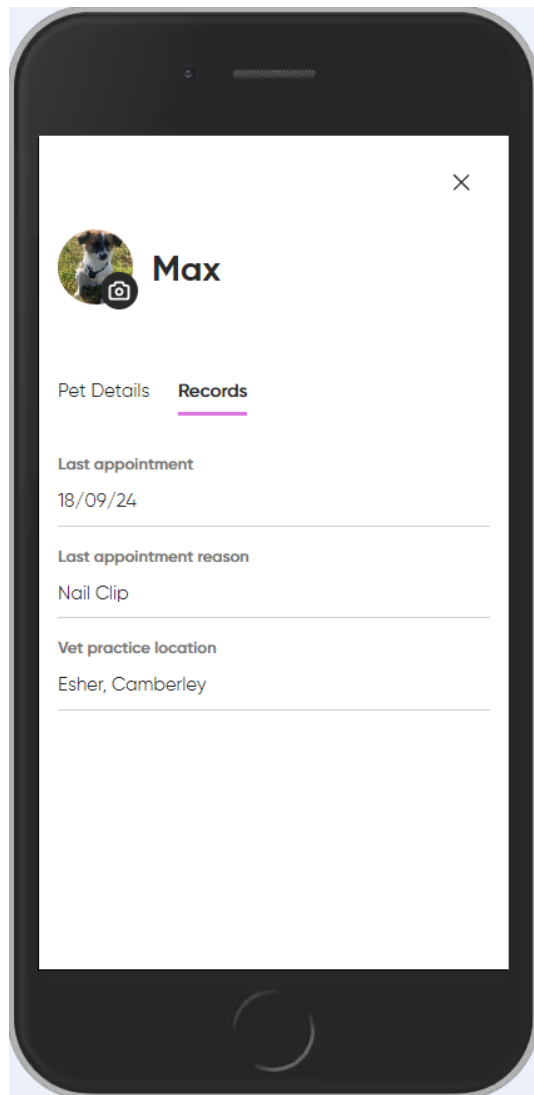

Against each registered pet, there is a '**View Profile**' button in order to display more information:

From this screen, the client can **add a picture** of their pet by selecting the camera icon. Once selected, this will allow them to browse their Photo Library, Take Photo or Choose File. If accessing from a desktop, this will allow them to browse their PCs files.

There is also a '**Records**' button which will display information regarding the last appointment:

The client can also add a new pet by selecting '**Add Pet**', and proceed to fill in the details. They can also upload a pet picture. Once finalised, press '**Save**'.

Add new pet

Pet's name

Fluffy 6 / 70

Date of Birth (if unsure, enter approx. date)

05/08/24

Species

Rabbit

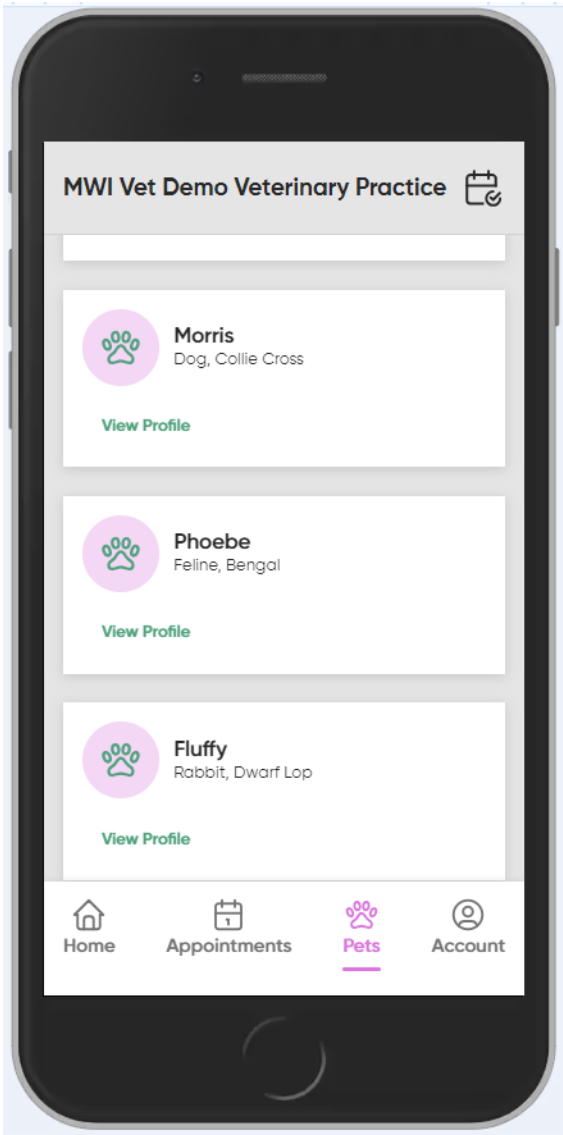

Breed

Dwarf Lop

Colour (optional)

Beige

A green confirmation message will appear at the top of the screen, confirming the new pet's registration. The client will now be able to see their new pet and view the **pet's profile**:

The new pet will now have been automatically registered against the client's record in Merlin:
