Adding Patient Weights

09/12/2024 2:25 pm GMT

Summary

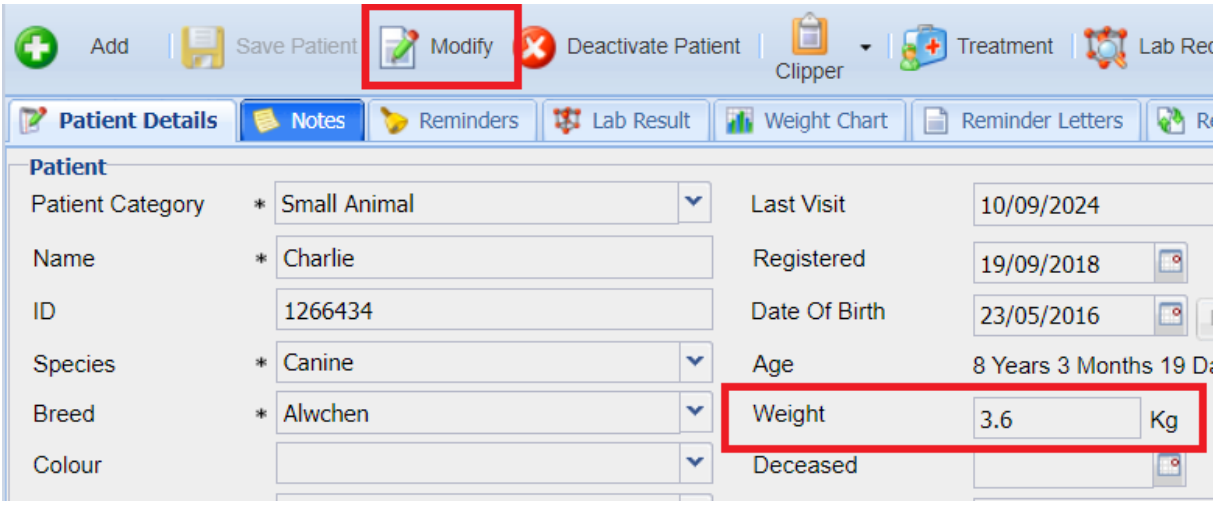
A Patient's Weight can be added through the Patient details screen, from any of the day lists, from the Treatment Screen or the Reception screen. This functionality allows you to add a Patient's weight to their treatment history with the ability to view their weight progress.

Details

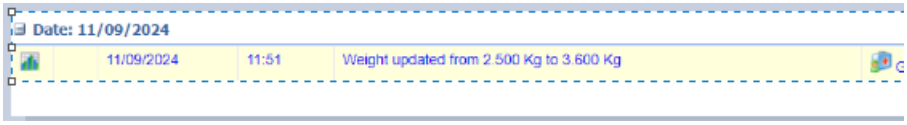
Add Weight

From Patient Details

1. Search and select a Patient from Reception
2. Select '**Patient Details**'.
3. Select '**Modify**'.
4. **Insert the Patient's weight** into the Weight field.
5. Select '**Save Patient**' to save changes.



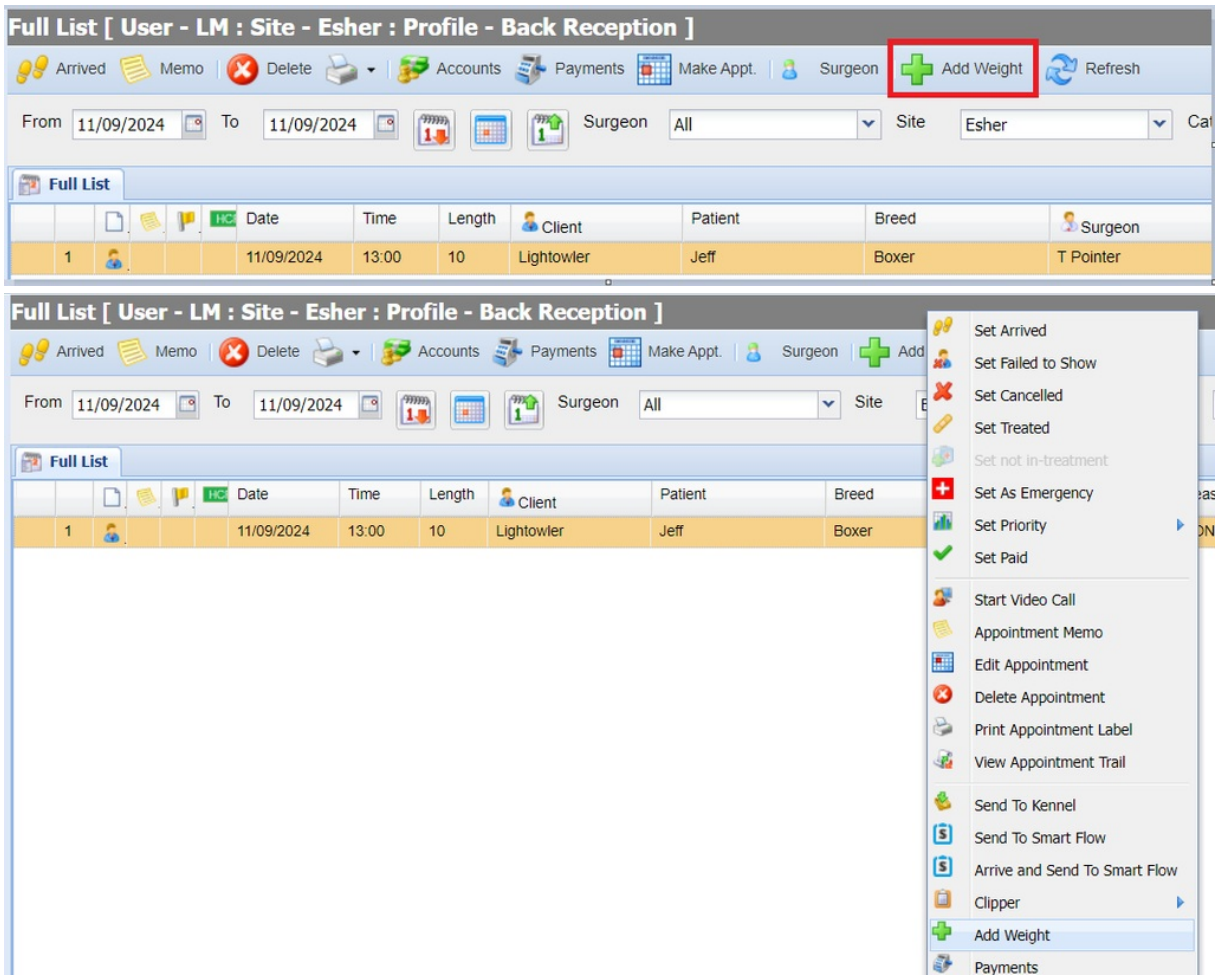
6. Once you have saved the Patient's weight an entry is added to the Patient's Treatment History.



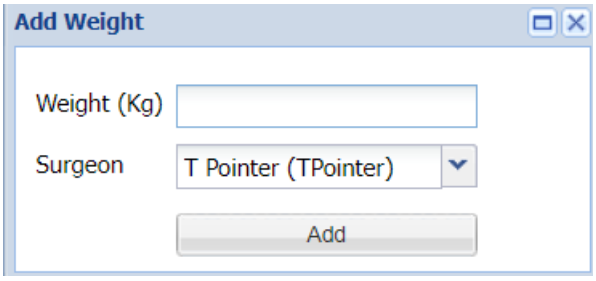
From Daylist

1. **Select a Patient** from the Daylist.

2. Select the '**Add Weight**' button, or if there isn't one visible, right click on the patient and select '**Add Weight'** from the list.



3. **Insert the patient's weight** and select the **Surgeon** click '**Add**'.

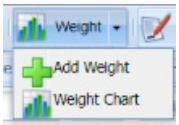


4. Once added, the weight will show in Treatment History.

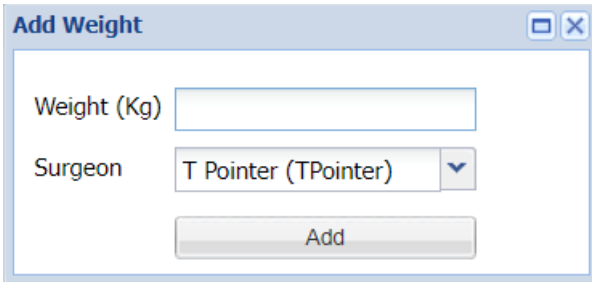
From Treatment Screen

1. Enter a Patient's Treatment Screen.

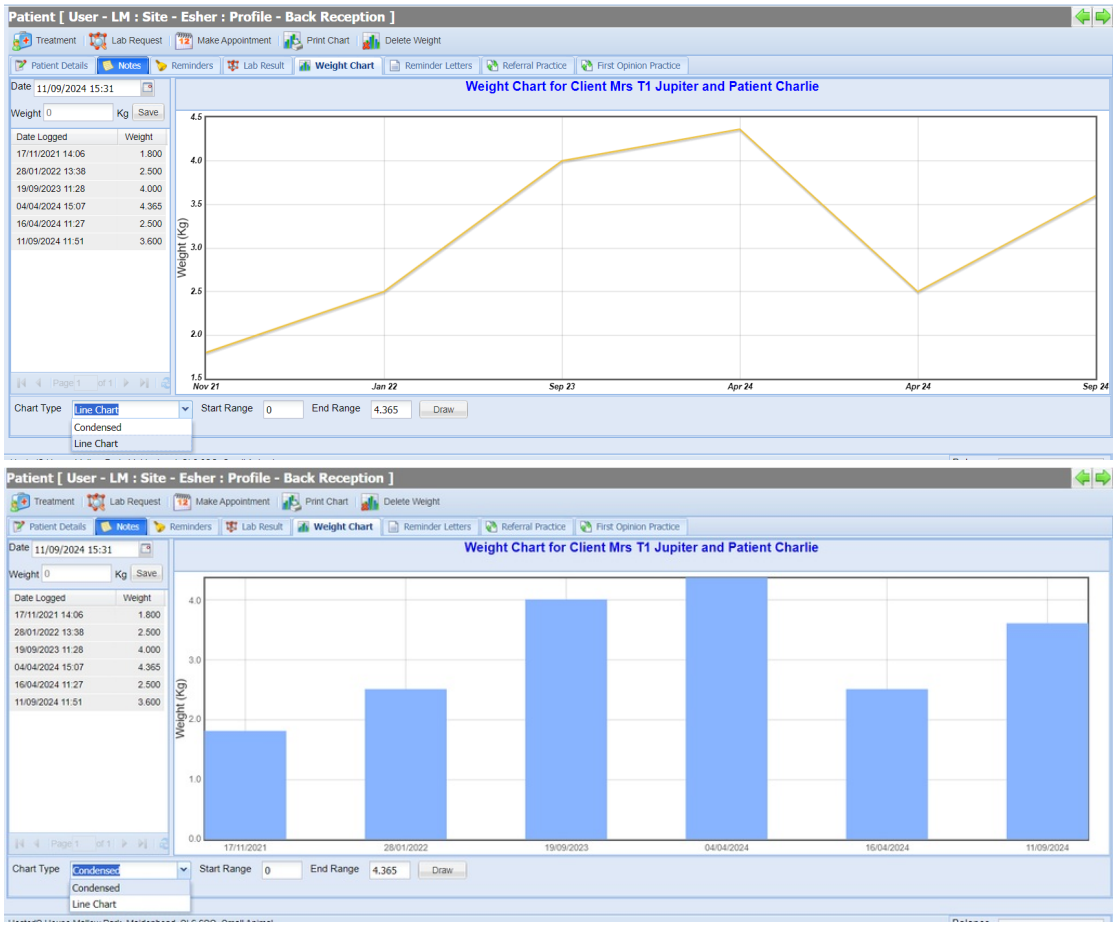
2. Select '**Weight**' and select '**Add Weight**' from the drop-down menu.



3. **Insert the patient's weight**, select the **Surgeon** and select '**Add**'.



4. Once added, the weight will show in Treatment History.

View a Patient's Weight chart


1. Enter a Patient's Treatment Screen.
2. Select '**Weight**' and select '**Weight Chart**' from the drop-down menu.
3. The Patient's Weight Chart will display. The Patient's weight history is displayed on the left-hand column.
4. You can view the chart in either **Flow Chart** or **Condensed.**
