

# Stock Centre

23/10/2024 1:04 pm BST

## Summary

Stock centre set up allows users to arrive and divert stock to other stock centres for better tracking and stock control.

## Details

Stock Centre set up is done via Administration > Stock Centre Setup.

The main stock centre will always display as the main site name. To add new one's, enter the name and description information into the appropriate fields and select 'Add New'.

**Note: The view order controls the position of the stock centre within the list.**

Once added, stock can be transferred from one stock centre to another via [stock transfers](#). Additionally, when arriving MWI Wholesale orders via the [ASN](#), items can be arrived into alternative stock centres created for that site.
